

AHT Cooling Systems, headquartered in Rottenmann, Styria, and with numerous subsidiaries abroad, is one of the leading international companies in the field of commercial refrigeration and deep-freezing for the food industry. For our current and future projects, we are looking for a reliable and ambitious employee who wants to join our design department as a technical administrator for SAP master data/bills of materials (f/m/d) at our headquarters in Rottenmann, Styria.

Technical Administrator SAP - Master Data/Bill of Materials (m/f/d)

YOUR TASKS

- As a member of the SAP team, you create new or alternative materials and master data in SAP.***
- You create parts lists for prototypes, pre-series, pilot series and series devices, taking into account deadlines, functionality and costs***
- The maintenance of existing master data and bills of material for various production plants is also one of your tasks.***
- You will work together with colleagues from all areas of research & development, purchasing, production, sales and quality assurance.***

YOUR PROFILE

- You have completed technical or commercial training***
- Experience in master data maintenance is desirable***
- You have knowledge in the use of SAP and MS-Office***
- Knowledge of English would be an advantage***
- Your working style is described as team-oriented and responsible***
- You have a high degree of reliability and flexibility***
- You keep a cool head even in hectic situations***

WE OFFER

As an attractive employer, we offer you optimal support during induction, internal and external training opportunities, a flexible working time model as well as a strong team and a pleasant working atmosphere. There are also various employee events, a company canteen with meal allowance, employee discounts with selected companies and insurances as well as company health measures. For this position we pay an annual gross salary of at least € 30,000.

We look forward to meeting you!
